

Are All Studios The Same?

Here's why *Tumble 'N Dance* is the right choice.

- One-Way glass observation windows for parents to view their child's class.
- Front Desk Staff available to assist you during regular instructional hours.
- Ability to take multiple classes, such as ballet, tap, jazz, hip hop, gymnastics, etc. by only having to come one day per week.
- All classes have a student capacity limit. Therefore classes will not be overloaded, unless an additional teaching assistant is added to the class.
- All students are measured for their recital costumes during class and the costumes are ordered for you. No hassles!
- Raised sprung floors with Marley dance floor in most of our dance rooms.
- Parents can access their TND account 24-7 via *AKADA-DanceWorks*. Make payments online for posted charges, auto debit, update personal information as needed.
- Parents can pre-register their children for classes before enrollment is open to the general public. That means returning students have first choice of classes.
- Assign both a Lead Teacher and Assistant Teacher in a gymnastics class that have seven or more students. More one-on-one attention for students during the critical time of learning tricks and needing to be "spotted".
- Families with more than one immediate child enrolled receive discounts on their monthly tuition.
